## Problem Set 5

---

### What to Do

---

1. Submit [Speller](#)

### When to Do It

### Advice

---

- Try out any of David's programs from class via [Week 5](#)'s source code.
- If you see any errors when compiling your code with `make`, focus first on fixing the very first error you see, scrolling up as needed. If unsure what it means, try asking `help50` for help. For instance, if trying to compile `hello`, and

```
make speller
```

is yielding errors, try running

```
help50 make speller
```

instead!
